ADVISORY OPINION

ISSUE: Is an out of state company who provides fabricated business identification signage under an agreement with a licensed Nevada sign contractor required to obtain a license from the Nevada State Contractors Board?

ADVISORY OPINION: Based upon the information provided, it is the Board's opinion that the fabrication of a sign at a manufacturing facility does not meet the definition of "contractor" under Nevada Revised Statutes (NRS) 624.020. Any installation, on-site fabrication, erection or wiring of signs must be provided by a Nevada licensed contractor.

It is not the Board's intent, nor within the purview of the jurisdiction of the Board to decide or resolve disputes involving the award of a bid or contract, or compliance with bid instructions and bid requirements. You should consult with your legal counsel regarding these matters.

Advisory opinions are often based upon limited information provided by the requestor, and are therefore broad in nature. It should be noted that under NRS 624.035 there might be more stringent requirements as determined by the city or county having jurisdiction.

Note: The foregoing opinion applies only to the specific facts and circumstances defined herein. Facts and circumstances that differ from those in this opinion may result in an opinion contrary to this opinion. No inferences regarding the provisions of Nevada Revised Statutes quoted and discussed in this opinion may be drawn to apply generally to any other facts and circumstances.

Dated this 29 day of March, 2006.

Margi A. Grein
Executive Officer
